NNSW INTEGRATED CARE MADE POSSIBLE BY STRONG LOCAL PARTNERSHIPS:

Leading Better Value Care

LEADING BETTER
VALUE CARE

- Better Healthcare components including new or improved Models of Care (MoC) for:
 - ✓ Management of Osteoarthritis (OACCP) (ACI)
 - ✓ Osteoporotic Refracture Prevention (ORP) (ACI)
 - ✓ Local musculoskeletal service (ACI)
 - ✓ Diabetes High Risk Foot Services (HRFS) (ACI)
 - ✓ Management of Diabetes Mellitus (ACI)
 - ✓ Management of Chronic Heart Failure (CHF) (ACI)
 - ✓ Management of Chronic Obstructive Pulmonary Disease (COPD) (ACI)
 - ✓ Renal Supportive Care (End Stage Kidney Disease - Palliative and End of Life Care) (ACI)
 - ✓ Adverse Events: Falls in Hospitals (CEC)

Winter Strategy

- Partnership approach involving PHN, LHD and Bulgarr Ngaru
- Community and Primary Care strategy
- Aiming to keep people well and at home
- Hospital Avoidance

A Joint Approach

- Tweed Byron Health Service Group
- Osteoarthritis Hip & Knee
- Looking at increasing access to conservative management and improving fitness for surgery

Redesign

- Hospital in the Home (HITH)
- Chronic Disease Management (CDM)
- Paediatrics

Aged Care

- Regional Planning approach for Wellness in later life
- Building Partnerships
- Health Literacy & dementia

Thank You
